REMARKS

Summary of the Office Action

Claims 2-4 and 7 stand rejected under 35 U.S.C. § 102(b) as being anticipated by JP 2002-298402 ("Nakamura").

Claim 1 is rejected under 35 U.S.C. § 103(a) as being unpatentable over Nakamura in view of U.S. Patent Application No. 2003/0016597 to Haruguchi et al.

Claims 5 and 6 are allowed.

Summary of the Response to the Office Action

Claims 1-7 are pending for consideration. Claims 1, 2, and 7 are amended to further define the invention.

Rejection Under 35 U.S.C. § 103(a)

Claims 2-4 and 7 are rejected under 35 U.S.C. § 102(b) as being anticipated by JP 2002-298402 ("Nakamura"). Claim 1 is rejected under 35 U.S.C. § 103(a) as being unpatentable over Nakamura in view of U.S. Patent Application No. 2003/0016597 to Haruguchi et al. Applicants respectfully traverse the rejections of the claims as amended.

Independent claims 1, 2, and 7 have been amended to recite that the wires are fixed at portions that do not overlap with each other "as viewed from a direction orthogonal to an extending direction of the wires," (emphasis added). Applicants respectfully assert that no new matter has been entered at least because the feature is shown as 22a, 22b, and 22c in FIG. 2 of the present application.

Application No.: 10/761,386

Page 8

Applicants respectfully submit that Nakamura fails to teach or suggest this feature as

claimed. In particular, Applicants respectfully assert that FIGs. 6 and 8 of Nakamura merely

discloses wires that are fixed at portions that are overlapping with each other as viewed from a

direction orthogonal to an extending direction of the wires.

Accordingly, Applicants respectfully assert that the rejection of independent claims 2 and

7 under 35 U.S.C. § 102(b) should be withdrawn because Nakamura does not teach each feature

of the claims. Furthermore, Applicants respectfully assert that the combination of Nakamura and

Haruguchi et al. fail to overcome the deficiencies of Nakamura. Accordingly, Applicants

respectfully submit that the rejection of claim 1 should be withdrawn. For at least the above

reasons, Applicants submit that independent claim 1, independent claim 2 and its dependent

claims 3-4, and independent claim 7 are in condition for allowance.

CONCLUSION

In view of the foregoing, Applicants respectfully request reconsideration and the timely

allowance of the pending claims. Should the Examiner feel that there are any issues outstanding

after consideration of this response, the Examiner is invited to contact Applicants' undersigned

representative to expedite prosecution.

If there are any other fees due in connection with the filing of this response, please charge

the fees to our Deposit Account No. 50-0310. If a fee is required for an extension of time under

37 C.F.R. § 1.136 not accounted for above, such an extension is requested and the fee should

also be charged to our Deposit Account.

Respectfully submitted,
